

11 - Dec 53

MEMORANDUM FOR: Colonel White

SUBJECT : Logistics Office Objectives

1. The ten projects and/or programs completed during the first quarter of FY 1954 and the fifteen completed during the last six months of FY 1953 indicate the Logistics Office is making steady progress towards meeting and fulfilling its objectives.

2. The program objectives for FY 1954, (Enclosure B), are comprehensive and appear to cover all phases of the Logistics Office activities. The addition of the following would, in my opinion, be helpful:

a. Review of the DD/P training requirements for Logistics Office personnel to make certain that individuals with future potential for such positions have the necessary training.

b. The Logistics Office position and objectives in connection with world bases with particular emphasis on the amount of material to be stockpiled at various locations.
